Gerardo Michele Mussuto

Fullstack Web-Developer

I 'm an entry-level Fullstack WebDeveloper with a solid background as a professional opera dancer. My artistic career has equipped me with a strong sense of creativity, discipline, and attention to detail, qualities that I now passionately apply to the world of technology and software development. I 'm driven by continuous learning and the desire to implement innovative solutions that blend technical skills with creativity, aiming to grow professionally and contribute to exciting projects.

EDUCATION

Full Stack Web Development
DCI Career Institute, Berlin

01/2024 - Present

Courses

- 14-month full-time training program focused on Frontend and Backend technologies within the MERN stack. The program culminates in a collaborative final project, integrating these skills, and includes German language training.
- 1- month orientation course: The course was focused on web development, online marketing, and a small project at the end of the course.

High School Diploma in Accounting and Programming
Istituto Tecnico Commerciale G. Marconi

09/2003 - 07/2008   *Potenza,Italy*

WORK EXPERIENCE

Career Trasformation into Web Development
-

05/2023 - 12/2023

Achievements/Tasks

- After a very successful career as an opera dancer, I decided to change my career path. I learned about programming during my high school studies, which sparked my interest in IT and never faded. Since I see greater long-term prospects in the technology industry, I made a conscious decision in favor of web development.
- To specially prepare for my career change, I took online courses on Udemy and Coursera and completed an official one-month orientation course in web development and digital marketing at the Digital Career Institute, which concluded with a small final project

Opera Dancer
Deutsche Oper Berlin, Theater Chemnitz, Semperoper Dresden, Theater Vorpommern

09/2013 - 12/2023

Skills

- Collaborated with teams to produce high-quality performances, enhancing communication and teamwork skills.
- Managed tight deadlines and rapid changes, demonstrating strong problem-solving abilities.
- Developed and implemented artistic ideas, showcasing creativity and attention to detail.

SKILLS

HTML5   CSS3   BootStrap   Sass   JavaScript

React   Node.js   Git/GitHub   API-Integration

MongoDB   TypeScript

PERSONAL PROJECTS

Portfolio (03/2024 - Present)

- **First Project in Web Development Course :** I developed my first portfolio using HTML, CSS, and Bootstrap to create a modern, responsive design. I integrated Formspree to efficiently manage contact form submissions.
- **Design Philosophy:** Dedicated to crafting clean, minimalist designs that capture my personality and showcase my skills and drive as a front-end developer.
- **Explore my** portfolio for a closer look at my projects and design approach

World-Trivia Game (09/2024 - 10/2024)

- **Educational Game with a Global Focus**: Co-developed a trivia game featuring questions from over 20 countries, allowing users to select a country and answer questions enriched with educational explanations. Integrated sound effects for correct and incorrect answers and implemented a timer to enhance engagement and interactivity.
- **Tech nologies Used**: Built with React, JavaScript, and CSS, creating a dynamic and responsive user interface to elevate the gaming experience.
- **Collaborative Development** : Contributed as a member of a three-person team, with a primary focus on implementing distinct sound effects for various game phases and developing the game's timer feature to enhance interactivity.
- **Live Demo:** Trivia-Game.
